The Secretary of the Treasury will not take any steps to relieve the financial stringency in Wall street at present. ## CHURCH MATTERS.

Frankfort is to have a \$15,000 Baptist church.

Lexington Baptists will build a \$30,000 house of worship.

Rev. Vaught's meeting at Burnside closed with eight additions.

There are 500,000 children in Kentucky not attending Sunday school.

The Bible is more in demand than any other book in the world today.

Mrs. Mary A. Willlett bequeathed \$2,203 to Flemingsburg Baptist church.

William Foster, formerly of this place, has been appointed constable at Somerset.

Rev. W. H. Ryalls has resigned the pastorate of the Baptist church at Richmond.

The new Christian church at Paris, a \$60,000 edifice, will be dedicated Sunday, Dec. 21.

Rev. Farley, of Maysville, has been called to the pastorate of the Christian church at Burgin.

The new Baptist church at Mackville has been completed and is a handsome edifice and an ornament to that little town.

W. R. Hearst's mother will provide for the Rev. W. H. Milburn, the blind chaplain of the United States Senate, as long as he lives.

Three cheers for Miss Callie Horton. The writer knew she was an expert in shorthand and glad she had achieved laurels in typesetting, and if she still desires to go higher on the ladder of fame she can come to Somerset where there is an abundance of room at the top.

Our post-office will have to be enlarged, as a box cannot be had for love or money, hundreds of our citizens receiving their mail at the call window.

We are really in emory of what we hope soon to become, for with our efficient city administration, a plan for the betterment of the city is hardly conceivable before it begins to materialize.

We do not like to speak our own praises so loudly to Stanford, but as

the INTERIOR JOURNAL says Somerset is among the best people in the world,

we will be excused for a little self laudation, and if there should be any doubt of these and former statements,

all we have to say is come and see and you will be convinced and be compelled to exclaim with the Queen of Sheba.

## SOMERSET.

Before this is in print our little city will be aglow with electrical effulgence.

We have a first class laundry here. Mr. Oliver, the operator, a Pulaskian, uses native help and gives perfect satisfaction.

The different churches are giving a series of informal receptions that are very pleasant and entertaining; cultivating the social qualities of their members.

Hello Crab Orchard! We are always glad to hear from you. We may extend a trolley line down to you soon as it seems impossible to reach you by telephone.

Mr. and Mrs. Livingston Andrews have taken their infant to Junction City to be with relatives during its serious illness. They have the sympathy of friends in their affliction.

The brick work of the new college building is about completed and the mechanics are putting forth extra exertion to get the structure under slate roof. The stone work is very elegant, being dressed and shipped here from Indiana.

We failed to get in our items last week as our time was occupied with moving out of our trunks and boxes into more commodious quarters. We are now pleasantly domiciled third door south of the new college building. Call and see us.

Our various stores are so over-crowded with Christmas novelties that one can scarcely elbow his way through the very wilderness of beauty from counter to counter. The cheap counters of many of them are things of wonder in variety and novelty.

We are having some gloomy weather now, but we must not forget that behind the clouds the sun shines, and in due time, if we are but patient, his beams will dispel the darkness, and if we have bright pictures in our hearts, even dark days will be lovely.

The South End is to have a fine new school building near the Higgins' addition East of the Q. & C., and we are to have a new three-story brick hotel on North Court Square, which will surpass anything in that line in convenience, elegance and equipment.

Three cheers for Miss Callie Horton. The writer knew she was an expert in shorthand and glad she had achieved laurels in typesetting, and if she still desires to go higher on the ladder of fame she can come to Somerset where there is an abundance of room at the top.

## How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough.

Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the rough cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by Craig & Hocker, Stanford.

## Bilious Colic Prevented.

Take a double dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy as soon as the first indication of the disease appears and a threatened attack may be warded off. Hundreds of people who are subject to attacks of bilious colic use the remedy in this way with perfect success. For sale by Craig & Hocker, Stanford.

The late Tom Reed's definition of a statesman as being "a successful politician who is dead," has been quoted perhaps as much as any of his sayings. Equally as true was his characterization of the Senate as a "place where good Congressmen go when they die." —Washington Star.

The splicing of the new Pacific cable was completed Sunday at San Francisco, and the shore end of the cable was christened by Miss Lucille Gage, daughter of Gov. Gage, of California. The ceremony was witnessed by a crowd of thirty or forty thousand people.

## A Liberal Offer.

The Barbourville dispatch says: The fight between the saloon people and their opponents is becoming warm. Each side is confident of success on the 18th. Prayer meetings have been held in all the churches and the pastors will preach on temperance during this week.

JASON WESLEY.

A popular Casey county boy who aspires to be the nominee for circuit clerk. He is a merchant at Middleburg and is postmaster of his town.

The fact that former Gov. W. O. Bradley visited Harrodsburg and in connection with some of the leading citizens of Burgin, examined the court records of Mercer county in regard to the Southern Railway contract, indicates a still unsettled state of things along this line and causes some Lancastrians to still entertain hopes of better railroad facilities in the near future.

THE Kentucky court of appeals having reversed the decision declaring Caleb Powers guilty of complicity in the murder of William Goebel and ordered a new trial, the country will have to prepare for a new infliction of the nuisance on the public. It is some consolation, however, to know that Judge Cantrill will be left out of the next trial.—Philadelphia Press. To this the Cincinnati Enquirer fittingly responds: Nuisance, is it? Should the machinations of justice in Kentucky be blocked simply because it is annoying to some of the politicians and party hacks of the country? There was a cold-blooded, calculating murder at Frankfort. Somebody committed a crime which our civilization regards as demanding the death penalty. Goebel was killed by a murderer who laid in wait for him and shot him from ambush. There was never a clearer case of capital offense and Kentucky can not afford to rest while there is a chance of getting at the whole truth and bringing all the conspirators to justice. It is a shame that there should be any citizen, not actually charged with participation in the crime, himself, who would like to have the subject dropped.

O. P. AUSTIN, chief of the Bureau of statistics of the treasury department, shows in a surprising statement of figures that the commerce between the nations of the world had grown from \$1,500,000,000 in 1800 to \$20,000,000,000 in 1900, or about \$2 for each individual in the world in 1800 to \$13 for each individual in 1900, and that the foreign commerce of the United States had made even more rapid gains, our exports of domestic merchandise having grown from \$32,000,000 in 1800 to \$1,460,000,000 in 1900, or 46 times as much at the close of the century as at its beginning.

THE Christian Scientists of Georgia claim that they got a victorious verdict from the supreme court of that State. A citizen of Dublin, a Christian Scientist, refused to give medicine to his sick child. The child died and the father was arrested and fined \$300. The case was appealed to the State supreme court, which reversed the judgment of the lower court, holding that failure to give medicine to children when ill is not a violation of the laws of the State.

THE Advocate's report of the Danville convention is the fairest and best written one we have seen. It tells in a concise way everything that happened and is absolutely clear of bias. Judge Saufley's admirable speech of acceptance is given in full and is most excellent reading. Messrs. Ralston and McIntyre are making the Advocate a splendid paper and we love it the more since they state that it will follow the rooster wherever it goes.

ILLINOIS has a law that no matter how valuable to his family or the community a citizen may be, if a corporation takes his life his family can recover only \$5,000 if the corporation is proved guilty of depriving them of their bread winner. The newspapers are making strenuous effort to have the law changed so as to make the jury the judge of the damages, and a bill to that effect will have popular support, if not legislative.

IT is quite possible that the contest in the Senate over the House bill to admit Oklahoma, New Mexico and Arizona as States of the union may be compromised. To join Arizona to New Mexico, and the Indian Territory to Oklahoma and then admit the four territories as two States would minimize the danger of over-representation in the Senate and be a very happy solution of the vexed question.

THE village of Collinwood, O., will be rewarded for voting whisky out. The Lake Shore railroad will spend \$1,000,000 in new shops additional to extensive buildings already erected there. Had the village voted for the sale of liquor the railroad officials say that this extra sum of money would have been withheld.

A JUDGE in Maine holds that it is not theft for a wife to go through her husband's clothes and abstract therefrom any cash assets that she may find. Of course it is not theft. If it were nine-tenths of all the married women in Kentucky would be in the penitentiary or on the way there.

FIFTEEN regiments are coming home from the Philippines and 15 regiments are to be sent to take their place. The deadly nature of the Philippine climate makes this expensive change a measure of economy.

E. P. Rice bought two mare mules a few days ago from George Hardin for \$310. A. L. & Boyette Edwards, of Woodford, sold to Fox & Logan a pair of year-old mare mules for \$300 and a pair of 16-hand horse mules for \$225.—Advocate.

The strenuous man, with mighty strides and use of voice and pen, marched boldly up against the trusts—and then marched back again.—Bryan on the president's message.

Representative Kehoe, of Kentucky, has introduced in Congress a bill to appropriate \$612,000 for the purchase of a site and the establishment of a military post in Kentucky.

Debate on the Statehood bill will be the program in the Senate each afternoon of the week with little probability that the measure will be disposed of before adjournment next Saturday.

Secretary Shaw has submitted to Congress an estimate of \$33,923.75 for a site for a military post at Chickamauga Park. The secretary recommended that the amount be carried by the Urgent Deficiency Bill.

During consideration of the Statehood Bill in the Senate Mr. Quay declared: "If the republicans can lie to the people about the admission of their territories in their platform they can lie about every other provision in the platform."
